- Lima, Perú

## EDUCATION

2023 - Present (7th Semester)

**Software Engineering (B.Sc.)**

Universidad Peruana de Ciencias Aplicadas (UPC)

## LANGUAGES

Spanish - Native  
English - B2

## SKILLS

- Frontend: React, Vue, Next, TailwindCSS
- Backend: Java + SpringBoot and Python + FastAPI.
- Database: SQL and Firestore.
- Tools: Git, Swagger and Postman.
- Cloud: Google Cloud Platform

## PROFESIONAL SUMMARY

Junior Full Stack Developer with experience building web applications using React, Next.js, Java, and Python. Focused on clean architecture, REST APIs, and responsive UI. Interested in backend, automation, and cloud technologies.

## EXPERIENCE

SOFTWARE DEVELOPER INTERNSHIP

2025 - Present | NHL Decoración Comercial

- Designed and implemented RESTful APIs and authentication systems.
- Database management and backend performance improvements
- Frontend development with Next.js and Tailwind CSS, focused on responsive UI.

## PROJECTS

WEATHERINSIGHTS

- Built a full-stack weather forecasting application consuming real-time APIs for multiple South American cities.
- Designed and implemented RESTful APIs using Spring Boot and MySQL.
- Improved data visualization and UX using Recharts and responsive React components.

AUTOMONITOR

- Built an automation system to detect changes in public product APIs and send real-time Telegram alerts.
- Backend developed with Python and FastAPI, storing change history in SQLite/PostgreSQL.
- Implemented scheduled monitoring, REST API documentation with Swagger, and a React UI for event tracking.

## CERTIFICATES

- Scrum Fundamentals Certified - ScrumStudy (2023)
- Databases for Data Scientists - University of Colorado Boulder (Coursera, 2025)
- Data Management and Storage in the Cloud - Google (2025).
