Lima, Perú

Languages: Spanish (Native), English (B2)

SUMMARY

Software Engineering student (7th semester) focused on Full-Stack development and applied AI. *1 year building web products and end-to-end features with **Next.js/TypeScript, Django, Laravel, and PostgreSQL** — from APIs and UI to deployment. Experience optimizing performance and building a Generative AI-powered SaaS.*

EDUCATION

B.S. in Software Engineering (7th semester)   2023 - 2027
Universidad Peruana de Ciencias Aplicadas (UPC)   Lima, Perú

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern   **Valparaiso, Chile(Remoto)**
ANTARCOLD   *Enero 2026 – Actualidad*

- Developed new endpoints and views using **Python, Django, and jQuery** for inventory/product modules, reducing operational time by **15%**.
- Implemented improvements across multiple components, boosting performance and taking the project to **~95%** completion.
- Worked with **PostgreSQL** to manage product and inventory data for AntarCold.
- Introduced **Git/GitHub** best practices (branching, PRs, etc.), reducing rework caused by merge conflicts.

Software Developer Intern   **Lima, Perú (Remoto)**
NHL Decoración Comercial   *Noviembre 2025 - Actualidad*

- Built UI components and enhanced views using **Next.js** and **Tailwind CSS.**
- Created **8 REST endpoints** using **PHP** and **Laravel**, documenting them with **Swagger**.
- Refactored code and optimized performance, reducing page load times by **20%.**

SaaS Founder & Full-Stack Developer   **Lima, Perú**
Starv   *Octubre 2025 - Actualidad*

- Built an **end-to-end SaaS** for SMEs using **Generative AI** to create micro-campaigns, AI-generated content, and AI personalization.
- Developed components and views with **Next.js**, **Tailwind CSS**, and **TypeScript**.
- Stored data in Supabase and designed a **multi-tenant** structure (tables, policies) for scalability.

SKILLS & KNOWLEDGE

- **Languages - Frameworks:** Next.js, Vue.js, TailwindCSS, Python, Django, PHP, Laravel, SQL, Firebase, Javascript/Typescript
- **Certifications:** Prompt Design in Vertex AI (Google); Database for Data Scientists (University of Colorado Boulder)
- **Tools:** Gemini API, Prompt Engineering, Generative AI, Git, Docker, Trello, Power BI, Microsoft 365, Swagger
